

[illegible][illegible][illegible][illegible][illegible][illegible]

Figure 1 consists of three pie charts illustrating the distribution of VFR and VFR on Top authorized above FL285 in RVSM airspace. The charts are labeled as follows:

- 18,000 AHS to FL280:** This chart shows the distribution for the lowest RVSM segment. The data is as follows:

Category	Percentage
VFR	180
VFR on Top	220
VFR on Top authorized above FL285	190
- RVSM levels FL290 to FL410:** This chart shows the distribution for the middle RVSM segment. The data is as follows:

Category	Percentage
VFR	200
VFR on Top	300
VFR on Top authorized above FL285	310
- FL430 and Above:** This chart shows the distribution for the highest RVSM segment. The data is as follows:

Category	Percentage
VFR	400
VFR on Top	450
VFR on Top authorized above FL285	570

Below the charts, a legend explains the symbols used:

- VFR Rights with Class A Airspace above 3000' AGL.
- VFR on Top authorized above FL285 in RVSM airspace.
- VFR on Top authorized above FL285 in RVSM airspace.
